After graduation in 1957, I attended Michigan Tech, (Houghton MI) for 3 years, and then dropped out.

In 1962, I married my wonderful wife, Patricia.

I returned to college, and graduated from Michigan Tech in 1968 with a BS in Mathematics. I spent nearly 30 years in the mineral industry, and I retired in 1991.

We have been blessed with 4 daughters, and 2 sons. Our children have given us 23 grandchildren, with 2 more on the way! Sadly, we lost one of the 23 to Downs' syndrome.

In 2000, I was dagnosed with Parkinsonism, and am being treated for this.

We spend our time on 'do-it-yourself' projects, camping, traveling, gardening, geneology, and of course with our children and granchildren. They live in Minnesota, the Upper Peninsula of Michigan, and in Colorado.

My husband Jack and I live in a large Manufactured home on a beautiful lake among many beautiful trees. we have been here for 7 years. Jack has 3 children, 5 grandchildren.

It is my second marriage. I have four children,

2 boys and 2 girls. 2 granddaughters 12 and 7. I am retired from a Silk Floral Shop, which I owned called Nan's Silk Room. After retiring I took up Drawing and only found interest in drawing angels. I am self taught and I draw Personal Guardian Angels for people. I plan to write about my experiences in how I got started drawing angels and plan to use some of my illustrations in the book also.
