

## Darryl Pfister

After graduating from SHS, I enrolled in the Cooperative Engineering Program at General Motors Institute in Flint, and worked at Fisher Body General Offices located at the GM Technical Center in Warren. In 1961, I completed the four year academic program, and in 1962, completed a Fifth-Year Thesis for my BME. The next 37 years were spent in a variety of assignments as GM reinvented itself. My personal life included snow skiing (especially in Colorado), biking, golf, and travel. I met my wife, Kathy, in 1968, married in 1972, and lived in Clinton Township, MI for 28 years where our son, Alan (now 31), and daughter, Kara (now 28) were born and raised. Our family enjoyed traveling by motor home and we especially liked trips to Theme Parks. Both of our children are married, and we have a grandson on Alan's side and are expecting on Kara's side next March. I retired from General Motors in November of 1999 with 42 years of service, and in 2000, Kathy and I moved to Indian River, MI, which is located 30 miles south of the Mackinaw Bridge. Activities that we enjoy while living here all year round include snowmobiling and traveling with the Inland Lakes Snowmobile Club, Kiwanis Club, golfing at the Indian River Golf Club, Sportsmen Club pot luck dinners, pontoon boating on the Inland Waterways, and snow skiing. I am also an active member of the Indian River Community Economic Development Alliance and the Marina Park Commission. This past summer was especially busy. We donated our home to Habitat for Humanity and in May they took it away. Then, we had a basement dug and a new modular home installed on the old site. The home was set on June 18<sup>th</sup> and we sort of moved in on September 8<sup>th</sup> with portions of the master bath and the laundry room still incomplete. Hopefully, life will return to normal by Christmas!

## Mac (Wicka) Rush

MAC WICKA RUSH MARRIED JACK RUSH (54) 2 DAUGHTERS, 2 SON IN LAWS, 1- 6 YR OLD GRANDDAUGHTER. MOVED TO ATLANTA IN (69) FOUNDED J. B.
